ON-CAMPUS LIVING VS. OFF-CAMPUS LIVING

CRUNCH THE NUMBERS

As you are looking at housing options, we encourage you to compare the costs. This tool can help you determine which option best fits your budget. To calculate your on-campus choice, please refer to the On-Campus Living Options information below. You will find the costs broken down by month if that is how you choose to compare. Remember that the majority of on-campus housing includes all utilities, whereas living off-campus you may need to figure these in as a monthly cost. These costs may range from electricity to heat to water to internet service. Also, don't forget to figure in your groceries (on average, food costs at least \$100 per month). Make sure to do your "homework" to find the best option for you!
